# REPUBLICANS IN LETTER TO HANNA

Strongly Represent Feeling on Leper Control.

MASS MEETING PROJECT FAVORABLY CONSIDERED

ANSWERS FROM ORGANIZATIONS RE SUGGESTIONS FOR LEGISLATION—RECOMMENDATIONS.

A very important meeting of the Executive Committee of the Republican party was held in headquarters yesterday afternoon and so much business had to be attended to that it was dark before the committee finally completed what was brought before them for consideration.

The matter of the control of the leper settlement by the Federal Government was brought up for consideration after the reading of the various communications, and it seemed to be the unanimous opinion of the committee that there should be held a mass meeting at which there would be present representatives of all the classes of the complex society of the city, the idea being to pass resolutions protesting against Federal control of the leper settlement.

After considerable discussion it was decided that it would be best to await more definite information regarding the recommendations of the Senatorial Commission before taking any definite action.

One of the members of the committee said he believed from information which he had received that there would be no such measure passed by Congress. It was practically killed. In the first place, in order that the measure should become a law, it would be necessary to secure the endorsement of Surgeon General Wyman. As was well known, Wyman was against the measure.

Secretary Atkinson read the following communication which had been sent to Mark Hanna, chairman of the National Committee, on behalf of the committee:  
Honolulu, T. H., January 10, 1932.  
Hon. M. A. Hanna, Chairman Republican National Committee, Washington, D. C.  
Dear Sir:—The statement has been received here from Washington that those United States Senators who recently visited the Territory of Hawaii as a Commission to investigate, and report to the Senate upon affairs and conditions in these islands, have recommended that all the lepers now on the island of Molokai should be placed under control of the Federal Treasury Department, also that all lepers now on the Mainland of the United States should be transported to Molokai for treatment, under the same control with the lepers of Hawaii.

"So strongly did we feel upon this subject that our secretary was directed to send you the following telegram on the 8th inst.:  
"Honolulu, January 8, 1932.  
"Hon. M. A. Hanna, Washington, D. C.  
"Republican organizations protest against Federal supervision, and transfer of lepers from Mainland.  
"We insist on caring for our own afflicted. It is our privilege and duty.  
"Republican Party's pledge to this policy won last election.  
"(Signed) ATKINSON, "Secretary."

We are now directed by both the Executive and Central Committees of the Republican Party in the Territory of Hawaii to inform you that the adoption of any such policy is strongly opposed by our people as a whole, also that it would be detrimental to Republican interests in this Territory and would at once lose for the party that political control which it has so recently secured, and mainly upon this very issue.

The lepers, themselves, are opposed to Federal control of the settlement now established at Molokai. They are averse to being thrown into communication with strangers, owing to their unfortunate condition due to the nature of the disease from which they are suffering. They are not like white men. Their habits, food and mode of living are different, and these would first have to be studied by Federal officials coming in contact with them before any good could possibly result from the change suggested.

It is extremely doubtful, moreover, whether any benefits could be accomplished by placing the lepers of Hawaii under Federal control, as reference would then be made to Washington in any cases of complaint and the long distance would preclude the possibility of prompt attention to their needs and

wants. Control from a distance would work a hardship upon them.

The admission of lepers from all parts of the United States, many of whom are Chinese, Porto Ricans and Norwegians, would be one of the most objectionable features contemplated. Averse to the presence of strangers, the lepers would shrink from sudden contact with hundreds of other unfortunate whom they had never seen or known, and who could not even speak their own language.

Heretofore it has been a source of pride to the government of these islands to furnish proper care, comforts and medical attention for their unfortunate fellow citizens. They have always been regarded as a subject for local control, and the pride and responsibility of the people in performing this duty compels a desire to improve their health and eradicate the disease.

While Hawaiians will always be glad to secure assistance in the study and care of this disease (and it is our hope to eventually clear these beautiful islands of all traces of the disease) we are strongly opposed to the permanent establishment of a lazaretto on Molokai, which would make this Territory forever known as "The Leper Colony of America." Such a course would be detrimental to every social and business interest. It would injure the sale of our products and prevent visits from strangers, who would hesitate to include a Leper Colony in their holiday itinerary.

This entire question was fought out in the recent political campaign in this Territory. It was the main issue. The present Delegate to Congress, Robert W. Wilcox, was defeated because he had introduced a bill in the House of Representatives embodying the same ideas as the United States Senate Commission. Prince Kuhio, the Republican candidate for Delegate, was elected because he opposed the Wilcox idea and because he promised to use his efforts to maintain local control of our local trouble. In this he was supported by the Hawaiian voters and secured the remarkable majority, over Wilcox, of nearly 2,000 votes out of a total of 11,326 votes cast at the polls.

It was unfortunate that the Senate Commission was unable to personally visit Molokai, to see what is done there by our local Board of Health, and to learn the wishes of the patients directly from themselves at their own sanitarium.

Trusting that you will give the foregoing facts your earnest consideration, and aid us in preventing any injustice or unkindness being done to our unfortunate fellow citizens in Hawaii, We have the honor to be, Sir, Your obedient servants,

C. L. CRABBE, Chairman.  
A. L. C. ATKINSON, Secretary.

The question of the bounty of four cents on Hawaiian-grown coffee was brought up for consideration and the committee expressed itself in favor of having a man at Washington who would be able to present the situation here squarely before the members of Congress.

The following communications from Harbor 34 and the Builders and Traders' Exchange, in answer to others sent them by the Central Committee, were read:

A. L. C. Atkinson, Secretary Territorial Republican Central Committee.  
Dear Sir:—Your letter of the 8th inst. to hand and contents noted. At a special meeting of Harbor 34 we passed a resolution of thanks. We read what you had to say regarding ideas, etc., and at our next regular meeting on Sunday, the 15th, we will devote the entire session to a consideration of your recommendations. We will be only too glad to meet with you and exchange views on anything beneficial to our profession or, in fact, anything for the good of this Territory. An answer explaining matters more fully will be forwarded to you as soon as possible very sincerely, J. P. SEARLE, Captain's Clerk pro tem.

A. L. C. Atkinson, Secretary Republican Territorial Central Committee.  
Dear Sir:—Your favor of the 6th inst. has been received advising this Exchange that your committee would be glad to consider suggestions from this Exchange as to legislation. I beg to thank you for the courtesy extended and as there are several matters which we will doubtless desire to bring to your attention, you can count on our organization assisting you in the framing of legislation affecting matters of interest to us in any manner in our power.

Again thanking you for affording us this opportunity, which the Exchange will take prompt advantage of, I remain, very truly yours,

A. GARTLEY, President.  
Several recommendations were made of men for various positions within the gift of various Territorial officials.

K. OF P. INSTALLATION.
